

## Pelicanase 1770

Part #PE010 & #PE012

Polecam have selected the Pelicanase 1770 as the Ultimate in secure transport for their Polecam Starter Pack (PSP), Polecam Starter Pack PLUS (PSP+) and the Polecam Professional Pack (PPP). The Polecam systems are supplied as standard in a pre-cut protective foam which drops straight in to the Peli 1770 and, when fitted with the addition of the "single carry" handle to the side (Part #PE012) the entire Polecam system is easily manageable and manouvered by one person.

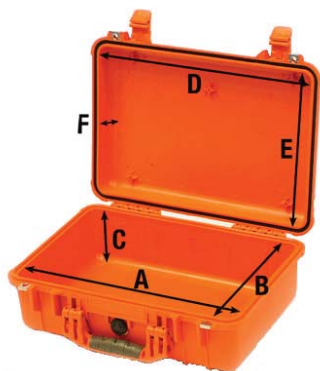

Peli is an internationally recognised brand and product, the cases are Waterproof and Crushproof and are provided with a worldwide warranty offering unrivalled back-up and support.

Steffan Hewitt, Director at Polecam, has used Peli cases for more than 20 years. We have first-hand knowledge that if anything on the Peli case is broken in transit, it is replaced with no quibbles. For a jobbing cameraman that level of support is second to none.

Dont buy cheap!, you will only end up buying twice!

Buy the best, The Pelicanase does the job
